

PERGO®

ORIGINAL LAMINATE
COLLECTION 2023-2024

FLOORS FOR REAL LIFE

At Pergo we build strikingly beautiful, extremely hard-wearing floors. No shortcuts, no compromises, just the best in Scandinavian function, design and engineering. We invented laminate flooring and in fact, we've been innovating floors that have gone from strength to strength since the 1970's. Floors that are easy to install and maintain. And with one of the widest ranges around in wood, vinyl and laminate, you're sure to find the perfect one for you.

Come in and look around.

STAVANGER L0345-05002 PORT OAK

04

WHY PERGO LAMINATE FLOORS

Our laminate floors are easy to clean, simple to install and built to last. And come with a complete range of formats and styles to suit your home.

06

A SENSATION IN FLOORING

With the look and feel of natural beauty, you wouldn't believe it's not wood.

10

DURABLE. NATURALLY.

We continually work to minimize our environmental impact through innovation, and by challenging the way we produce floors.

12

OUR COLLECTIONS

What's your style? From rustic to elegant, there's a Pergo laminate floor to enhance your home.

44

ACCESSORIES

It is the little things that make big things happen. Complete the look and feel with Pergo accessories of your choice.

Every plank of a Pergo laminate floor is covered with our patented TitanX™ that protects your floor from scratches and wear throughout its lifetime. So it will take a beating, even if you're playing with toys, moving furnitures or dancing around.

WHY PERGO LAMINATE FLOORS?

Pergo laminate floors are built with Scandinavian aesthetics and simplicity for people who love to be active. Scratch resistant and able to withstand wear and tear, they are the perfect floors to play on with the kids, dance to the beat, or just chill in a yoga pose.

Our Pro laminate floors are the perfect choice to life-proof your home. Use these floors on those high-traffic, hard wear areas like kitchens and hallways where there's lots of coming and going, playing or dropping things. It's that sense of beautiful, functional living you come to expect from Pergo. After all, we invented laminate flooring in the first place.

HIGH RESISTANCE TO SCRATCHES AND WEAR

Every plank is covered with our patented TitanX™ protection. For especially high demanding areas, choose a Pro floor. See page 8.

WATER RESISTANT* AND EASY TO CLEAN

AquaSafe technology keeps your floor hygienic and simple to clean. And our floors come with a wet warranty up to 15 years**.

TRUE TO NATURE

All our laminate floors are incredibly true to nature. For an even more natural look & feel, look for our Sensation floors. See page 6-7.

EASY TO INSTALL

Just click into place with the glueless PerfectFold™ or Uniclic click system.

PERFECT FINISH

From faultless installation, to seamless finishing and worry-free maintenance of your beautiful new floor. Choose from the wide range of accessories.

UP TO LIFETIME WARRANTY**

All Pergo laminate floors come with an up to lifetime warranty, so that you can live life to the fullest, without worrying.

HIGH RESISTANCE TO COLOUR FADING

Your floor keeps its colour year after year.

A close-up photograph of light-colored wood-grain laminate flooring. The planks are arranged in a staggered pattern, showing a detailed wood grain texture. The lighting is warm, highlighting the natural-looking patterns and colors of the laminate surface.

*AS CLOSE AS IT GETS TO REAL WOOD,
WITH ALL THE BENEFITS OF LAMINATE*

SENSATION FLOORS – NATURAL ON A WHOLE OTHER LEVEL

With Pergo Sensation laminate you wouldn't believe it's not wood. It's that feeling of natural beauty you get from authentic looking shades and grains together with a warm, matt finish. Add in more than natural protection and you have a floor that stands out for years to come.

DEEPER, MORE AUTHENTIC STRUCTURES

As close as it gets to wood, with all the benefits of laminate – right down into the bevels – to give your home that real wood look. You could say the imperfect makes it perfect.

BEVELLED EDGES AND MATT FINISH

Sensation floors come with bevels on all four sides of the planks. Those deep edges give that air of authentic beauty. Add a sophisticated matt finish and your floor looks as warm and pure as anything nature can produce.

When you want amazing-looking natural floors ask for Pergo Sensation laminates.

TITANX™ - FOR WHEN THE GOING GETS TOUGH

Every plank of a Pergo laminate floor is covered with our patented TitanX™ technology. This superior toplayer gives your floor excellent resistance to scratches & wear, and makes your floor hygienic and easy to clean.

1. SUPERIOR WEAR AND SCRATCH RESISTANCE LAYER
2. EVERLASTING DECOR
3. HIGH-PERFORMING HDF CORE
4. BACK STABILISER

TOUGH FLOOR OR EVEN TOUGHER FLOOR – GO PRO

Even if all Pergo laminate floors are more durable than most, there might be areas which need that extra strength. In that case Pergo laminate is available as a Pro collection – for those high traffic areas like kitchens, hallways and living rooms where you don't want to care – and where the kids can do what they do. Be wild.

SUPERIOR DURABILITY
For all-round medium use
up to lifetime warranty*

PRO: OUTSTANDING DURABILITY
For areas with heavy use
lifetime warranty*

AQUASAFE: BECAUSE LIFE'S TOO SHORT TO WORRY ABOUT WATER

All Pergo laminate floors have AquaSafe, our in-house developed technology that creates a sealed, 100% watertight* surface all the way down into the bevels, preventing water from penetrating the floor. It simply stays on the surface and you can easily wipe it away.

* Tested according to ISO 4760 (no leakage) and is not following EN13553 standards designed for welded resilient floor coverings.

An aerial photograph of a vast, dense forest of evergreen trees, likely spruce or fir, covering a hillside. The trees are a vibrant green, and the perspective is from a high angle, looking down on the forest canopy. The text is centered over the middle of the image.

THE CORE OF ALL OUR LAMINATE
FLOORING IS MADE OUT OF
100% RECOVERED WOOD

DURABLE. NATURALLY.

We produce flooring as sustainable as possible, constantly innovating to minimize the potential impact on our planet. Therefore, we (Unilin Group) have linked ourselves to the Science Based Targets Initiative*. Our set and verified climate targets for 2030 put us firmly on the path to help limit global warming to 1.5°C, as outlined by the Paris Agreement.

As the inventors of laminate flooring, we're proud to be the first producer to receive the Nordic Swan label and EU Ecolabel for a floor.

Our laminate floors are certified by PEFC – one of the most trusted certificate in sustainable sourcing. This guarantees our recovered wood is sourced from sustainably managed forests and controlled sources.

MAKING USE OF RECOVERED WOOD

Trees are also an important habitat for animals and essential in stimulating biodiversity. We therefore use 100% recovered wood when producing the high-density wood fibreboard in the core of our laminate. This is wood collected from sawmills, forest management processes.

CLEAN AIR INDOORS

We spend lots of time indoors, and there are many things that influence air quality, like ventilation, cleaning agents, candles and even your furnishing materials and flooring.

We produce flooring in-house so we know exactly which materials are involved and can control emissions of harmful substances. And you can install your flooring without needing any adhesives.

MINIMAL VOC EMISSION

We work to minimize VOC (Volatile Organic Compounds) emissions. Formaldehyde is a VOC that's found in flooring. Formaldehyde emission in our laminate flooring is negligible and 5-10 times lower than EU restrictions, so there's no risk for you or your family.

GREEN ENERGY PRODUCTION

Unilin, the group behind pergo, has invested in green energy for many years. Today we are operating at 60% renewable energy thanks to windmills, solar panels and even two co-owned biomass plants.

EASY TO INSTALL, EASY TO LIVE WITH

We believe in making floors that will last and bring joy, instead of becoming waste after a few years. That's why we offer up to life-long warranty. Thanks to our advanced click technology you can install your floor glue-free without needing tools. That way you can uninstall your floor without any hassle or damage.

3029 0001

* The Sciences Based Targets initiative (SBTi) is a collaboration between CDP, the United Nations Global Compact, World Resources Institute (WRI) and the Worldwide Fund for Nature (WWF). The SBTi defines and promotes best practice in science-based target setting, and independently assesses and validates companies' climate targets.

OUR COLLECTIONS

Scandinavian never goes out of style. The same goes for functional design. Our complete range of Pergo laminates delivers just that. Whether you want the high-quality feel of Odense's long planks, the natural look of Arendal or the minimalistic infinite look of Mandal, there's a floor to fill your every need.

And all of them are designed to be durable and have a completely watertight surface. These are the reasons why Pergo laminate floors have become true representatives of Scandinavian functional design. So your kitchen, hallway, bedroom or living room is a pleasure to come home to. Always.

Transform the feeling of your entire room.
Make it wider, narrower, longer, darker or
lighter by the format and design you use
– the options are endless.

Use our large range of accessories to mix and match. From skirtings to stair noses, underlays to profiles, Pergo got you covered.

*NATURE'S ENDLESS
VARIATIONS WITH EXTRA
LONG, WIDE PLANKS*

NEW ODENSE

Our new Odense floors take inspiration from the lush hills of Fyn, to create a perfect balance between the past and the future. Want that premium look you get from extra-long, extra-wide planks? Odense helps you create a vibrant and natural looking space, giving larger rooms a sense of grandeur whilst giving smaller spaces a sense of calmness. Odense looks and feels genuinely authentic. Natural. So close to real wood you won't believe it's not.

ODENSE L0363-06797 DUSK OAK

ODENSE L0363-06791 CLAY OAK

DESIGN MEETS DURABILITY

Like all Pergo floors, Odense is extremely durable, covered with both TitanX™ protection and AquaSafe technology so it looks its best for years to come.

©DENSE L0363-06798 FOLK

The Folk design was created by hand and implemented with today's advanced techniques, making this decor a true representative of modern craftsmanship.

FOLK - A FLOOR WITH A SCANDINAVIAN STORY

Our new Folk design takes inspiration from old Scandinavian folk art, by giving the traditional farmhouse style a contemporary twist. This decor is something different, a genuine eye-catcher, mixing old and new, traditional and modern, in a truly unique way. It creates a bold statement with its slightly worn look and makes for a perfect match in any room that desires that little extra focal point.

For the creative minded, it's possible to mix Folk with the Vibrant Oak design. This gives an even more unique yet coherent look in your home, as the two designs have a colour matched base.

IT ALL STARTS WITH THE FLOOR

IDEAS AND INSPIRATION FROM AN INTERIOR DESIGNER

We sat with Pella Hedeby, Swedish interior designer and stylist, to get tips on what to think about when you decorate your home. Pella has lots of experience in decorating private homes and commercial premises and is passionate about what materials you should choose and everything else about interior design, from flooring to colour combinations.

What are the main things you should think about, when decorating your home?

The bases are everything. If you have well-thought-out material choices that follow a common theme through your home, then you have a great base for the way you furnish. "Less is more" may be a bit of a tired expression, but it's so true. Put lots of thought into what you add. Often it doesn't take much to create that homely feeling. Less "things" make it easier to keep your house tidy and enjoy what you have.

What are the future trends of colours and colour combinations?

I have a restrained approach to trends. Whether it's colours, materials or things. Sure, I can be inspired by something new, but I always ask myself, "Is it something I could live with over time? Did I like this 10 years ago and will I like it after 10-20 years?"

Having said that we see more colour and playfulness in many places today. Together with a minimalist, stripped-down, toned-down expression. It's important to remember that we are all different. Some people constantly need

new impressions and a lot of pulse to get energy. I belong to the group that takes in the smallest shade, filled with a streak of light, a scent and feeling in a texture. So I need to scale back and minimize things to experience balance and harmony.

In my world, materials and textures set the tone and feeling in a room. Then you can work with the smaller details.

Tone-in-tone or mixing your favourites. Like when you put together a bouquet of flowers, layering shapes and colours.

"CHOOSE A FLOOR THAT LASTS OVER TIME"

What things about flooring should you think about if you want to give a room extra space?

Lighter shades give you a more airy feeling. It's the same when you add colour to other surfaces. It reflects light and gives you that feeling of space.

Any rules about combining colour on floors and walls?

When decorating a new home, or renovating from scratch, my tip is to always start with the floor. You lay a floor so it lasts a long time, slightly more long-lasting than the colour

of the walls. The floor forms a large part of the interior and the feeling in the room. The sense of style is set with the floor and the choice of skirtings should be in harmony with the architecture. A great way to put it all together is to create a mood board with samples of materials, colours and inspirational images.

Should flooring in different rooms have to match each other, or should I see each room as unique?

I think it's nice to think holistically and let one material be the base everywhere. But different rooms naturally have different functional requirements. So I would say that it's increasingly common to mix different types of floors based on function and focusing on sustainability.

What's the biggest mistake people make when choosing a new floor?

Many people start with colours and other materials and interior details, leaving the floor as a compromise. I suggest you turn that upside down. The main thing is to choose a floor that

lasts over time. It's costly and time consuming to replace a floor, so choose what is the base of your home carefully.

Any thoughts regarding mixing different types of wood on floors and furniture?

Instead of mixing different types of wood flooring, I'd mix and match different types of wood on floors with other furnishings. For example, it's nice to mix furniture and interior details with a vintage patina that contrast with the choice of materials. I think natural material choices are always welcome elements that add a genuine feeling to any home. If there is a "rule", it's better that it's a complete, natural contrast than something that melts together – but doesn't really. Here you can balance the feeling that if a floor takes loads of space, you can add something to balance it. Like adding a rug and then furnishing with wooden furniture. Or working with wood in smaller details, a hook strip, a wooden bowl or the frames around, art on the wall...

PELLA HEDEBY
INTERIOR DESIGNER

YOUR FLOOR – FINISHED IN STYLE

Choose from our wide range of accessories to give your interior that perfectly finished look and feel. From seamless transitions to stairs or walls, silent underlays to improve your comfort or a skirting that finishes off the room in style. Details make perfection.

UNDERLAYS

Make a great floor greater. Underlays increase walking comfort, improve your room's acoustics, avoid creaking noises, support the click system and protect floors from rising moisture. They can be combined with underfloor heating or cooling too.

SKIRTINGS

Finish the look with colour matching skirtings, or complete your interior style with one of the many paintable white shapes.

PROFILES

Hide those saw cuts and give your floor room to expand with profiles. Create a smooth transition with the colour matched Incizo® profile.

ALL YOU NEED TO INSTALL, FINISH AND MAINTAIN YOUR FLOOR

A laminate floor is more than the planks you walk on. It's a complete home decor solution. That's why Pergo also offers a full line of accessories. Everything you need for trouble-free installation, finishing and maintenance.

1. UNDERLAYS

Enjoy walking on quiet floors without creaks? Choosing the right underlay can improve your living comfort significantly.

2. SKIRTINGS

Give your interior that stylish impression with skirtings that have the same look as the floor. You can also go for the white and paintable skirtings to match the colour of the wall.

3. EXPANSION PROFILES

Floors in connecting rooms melt together thanks to a colour matched expansion profile. Read about our Incizo® 5-in-1 solution on page 54.

4. ADAPTER & END PROFILES

An elegant way to make a transition when laminate floors meet other surfaces. Use an end profile between laminate and windows and an adapter profile between laminate and lower floor surfaces. Available in our Incizo® 5-in-1 solution.

5. STAIR NOSES

Pergo's flooring is an excellent choice for staircases. Stair noses provide an elegant finish to each step. Various stair finishes are possible. Available in our Incizo® 5-in-1 solution.

UNDERLAYS

CHOOSE THE UNDERLAY THAT'S RIGHT FOR YOU.

1. Decide where you want to install the underlay. Our underlays give you excellent sound insulation. Walking sound reduction shows you how much sound is reduced in the room. Impact sound reduction indicates how much sound is reduced to the rooms below.
2. Check your subfloor: is it wood or concrete?
3. Take a knife to cut the rolls and use our Pergo tape (NETAPE50) to connect them.

FOAM UNDERLAY WOOD SUBFLOORS

Qualitative and budget-friendly underlay for rooms where there is less traffic. Compatible with underfloor heating. Foam underlay can be used in buildings certified with the Nordic Swan mark. Thickness 2 mm. 15 m²/roll

PGUDLFOAM15B

SILENT WALK UNDERLAY** WOOD AND CONCRETE SUBFLOORS.

A strong, durable underlay that's perfect for rooms with heavy traffic such as your living room, hallway or kitchen. It offers optimal sound reduction and the highest efficiency for underfloor heating and cooling systems. It comes with an integrated vapour barrier to protect your floor against rising damp. Silent Walk is composed of renewable raw materials, such as plant-based oils and natural occurring fillers. Thickness 2 mm. 7 m²/roll.

PGUDLSW7

Walking sound reduction ●●●●●
Impact sound reduction ●●●○○

*When installing the Silent Walk Underlay on concrete floors or on top floorheating, tape the edges of the underlay with a damp-proof tape (NETAPE50). Don't do this when installing on wooden subfloors.

** Cradle to Cradle Certified® products are awarded certification based upon their performance across five critical areas of sustainability: Material health, Product Circularity, Clean Air & Climate Protection, Water & Soil Stewardship and Social Fairness.

PE FILM (POLYETHYLENE)

12,5 × 2,7 m = 33,75 m²/roll.

Protects flooring from moisture vapour rising from a mineral or concrete subfloor. Useful lifetime 50 years.

Thickness: 0,2 mm.

Material: Polyethylene, alkaline resistant.

QUICKHEAT. THE SMART WAY TO UNDERFLOOR HEATING.

QuickHeat is the smart, economic, comfortable way to heat your floors. No more slippers, just walking, relaxing and playing on a warm, welcoming floor. Pergo QuickHeat includes a heating foil that produces the heat, insulation plates to help radiate the heat upwards and two dampproof separation layers that block damp that could rise from the subfloor and protect from surface leakage.

Not sure how to plan your QuickHeat underfloor heating, or how much you'll need? You'll find step-by-step instructions on the Pergo website.

BUILT-IN SAFETY

QuickHeat has a built-in electrical safety feature that automatically disconnects power if there is a failure – so you never have to worry. Easy to install, the system is certified for do-it-yourself, no need for an electrician. It fulfills international standards for removable floors.

WIRELESS THERMOSTAT IN EVERY ROOM

Fine-tune the temperature of each room using the thermostat, or warm up the house remotely using an app on your smartphone.

QUICKHEAT FOIL

60 W / m². 230 V. Max installation 50 m².

FIND THE RIGHT FLOOR FOR YOUR PROJECT

Choosing the right floor is often the hardest part of refreshing your interior. Here are some tips to get you started, and help guide you towards the perfect floor.

PREPARE FOR WEAR

Our durable, hard-wearing floors stay beautiful for longer. They are the ideal choice for a busy hallway or kitchen.

LET'S TALK ABOUT WATER

A water resistant floor is nice to have in a living room. But in the kitchen it's a must. Our floors also have high resistance to stains.

SIZE MATTERS

Large planks boost the feeling of space in a large room, so if your home allows for it, go big.

THE FINISHING TOUCH

Accessories have a big impact on the look of your room. Choosing a matching skirting makes your room feel complete and lends a solid impression.

USE FLOORLAB

Want to see what a new floor can do for your home? Use the FloorLab app. Take a photo of your home and get a sneak peek of which one of our floors is the perfect match for your room. Getting the perfect fit just got simple.

VISIT A PERGO SUPPLIER
